

Honeywell Electronic Air Cleaner out-filters the competition

Honeywell F50 consistently outperforms Trion and White-Rodgers in fractional efficiency testing

In side-by-side testing, the Honeywell F50 Electronic Air Cleaner outperformed both White Rodgers and Trion models across all sizes of particles. The Honeywell F50 captured up to 30% more particles at some particle sizes, clearly establishing the Honeywell product as the true industry leader in performance.

**Fractional Efficiency
16" x 25 (1400 cfm)**

Remember, both Trion and White Rodgers supply electronic air cleaners to equipment manufacturers, so this comparison is also valid against the OEM's models as well.

Equipment OEM	Supplier
Carrier	Trion
Lennox	White Rodgers
Trane	White Rodgers
