

Honeywell F50A F50E Power Box

F50E power box 208421C includes the power supply and W8600E capability (120v). Replaces 202228A 202228B.

F50E F50A power box 208420A includes the power supply (2012 upgrade), W8600E capability and air flow sensor (120v). Replaces 200583A 200583B.

Honeywell 208420A Power Box

208420A power box includes an air flow sensor that controls the power supply. The power supply is turned on only when there is air flow. The static air pressure is sensed through an orifice in the bottom of the power box, shown in the photo to the right. The white plastic fitting protrudes through a hole in the cabinet. This fitting is a 1/4 inch diameter, and extends 3/8 inch.
