

HE420

Whole-House Steam-Powered Humidifier

Maintain your home's most comfortable humidity level and protect your hardwood flooring and woodwork with Honeywell's HE420 Whole-House Steam-Powered Humidifier. The exclusive technology of the

HE420 delivers consistent and reliable moisture on-demand, even when your heating and cooling system isn't running. You'll also save money on energy bills because humidified air feels warmer than dry air, allowing you to turn down your thermostat setting.

HE420 Whole-House Steam-Powered Humidifier

RELIABLE AND CONSISTENT HUMIDIFICATION.

Peace of Mind —

Moisturized air helps prevent dryness to increase comfort and protect woodwork and furnishings throughout your entire home.

Moisture On-Demand — Uses a thermal switch to deliver humidification into the home when needed - even when your heating and cooling system isn't running.

Up to 13 Gallons of Water — Evaporated into the home per day.

Safety Control —

Prevents the humidifier from operating if the furnace fails, protecting your HVAC equipment.

Improved Water Quality —

Filter removes chlorine and other impurities from water before it enters the humidifier and enters your home's air.

Save Energy —

Humidified air feels warmer. Turn down the thermostat for energy savings because you'll be more comfortable at a lower temperature.

Efficient — Automatic flushing timer reduces frequency of water usage to save on water bills. Only 1.5 gallons of water used per day.

Meets American Lung Association® Health House® guidelines.

Part Numbers - US	Gallons Per Day	Filter	Average Replacement
HE420A1009	13	Chlorine	1 year*

*Annual six-month humidification season per year. Actual filter life depends on the quality of the water used and the amount of humidification required.
